APPENDIX B: CULTURAL LEGACY AND HISTORY

MAN-MADE, HISTORICAL, AND CULTURAL

The man-made or Cultural Legacy section of the inventory describes the historic and modern features of the built environment as they relate to recreation opportunities in the county.

INTRODUCTION

The National Park Service (NPS) has developed guidelines for identifying, categorizing, and preserving cultural features (landscapes, archeological sites and historic properties). A complete Cultural Landscape Inventory of the county is beyond the scope of this park comprehensive plan. However, these guidelines will be used to inventory the primary existing cultural features that are associated with recreation opportunities located here. Future actions, which are identified in this Plan, will identify cultural features associated with recreation and leisure activities in the county that are owned by Indy Parks.

PEOPLE

In recognizing the importance of the cultural history of Indianapolis and Marion County as a part of the recreational experience, a brief history of its people is included here.

HISTORIC COMMUNITIES

According to James J. Divita in the Encyclopedia of Indianapolis, “Indianapolis’ first residents were squatters along the banks of White River, Fall Creek, Pogue Run and Pleasant Run.” Among them were John McCormick and George Pogue. Later early residents of the area included Cheney Lively Briton, Alexander Ralston’s housekeeper and probably the first permanent African-American resident; Calvin Fletcher, and Nicholas McCarty. Appendices in Peopling Indiana show a total population in Marion County of 24,103 in 1850, with 1945 (8.09%) foreign born. The influx of immigrants peaked in 1910, when the census showed a foreign born population of 21,210 but still, 8.04% of the total population. Other appendices show that the primary countries’ of origin in 1869 were Canada, England, France, Germany, Ireland, Scotland, Switzerland, and Wales.

Near its peak, in 1910, the largest numbers of foreign born originated in Austria, Canada, England, Germany, Hungary, Ireland, Russia, and Turkey-Europe. In 1869 and 1910 the largest foreign born population originated in Germany with 69% and 42%, respectively, of the immigrants. The influence of German immigrants is still evident today with the popular annual Oktoberfest held at the privately owned German Park (30 acres, 8600 South Meridian Street), and at the Athenaeum (401 East Michigan Street), the German cultural and social center. The Athenaeum originally housed a gymnasium, restaurant, bowling alleys, concert-hall ballroom, and a wall-enclosed beer garden with concert pavilion. Today, the Athenaeum is still a social and cultural center that includes a YMCA location, a theater group, and a restaurant.

In a similar time period, the Native-American population rose from 4 people in 1870 to 2,181 people in 2000. There were a reported 650 African-Americans in Marion County in 1850, and 207,964 in 2000. Indianapolis does not have as diverse of an ethnic heritage as other cities, such as Chicago and Detroit. However, the City’s population is growing and becoming more diverse, and its moniker of being the “Crossroads of America” speaks to the growth of contemporary communities here.

PLACES

Recreation places and the types of leisure activities have changed as the social and economic context of the world has evolved. Placing the development of parks in this context is a means to understand the correlation between park type, activities and needs and the growth of the city from a small settlement on the White River to its position as the 15th largest city in the United States. The following history of parks in Indianapolis documents the development of its park and recreation activities.

HISTORY OF PARKS & RECREATION

The following text was written by Michelle D. Hale for The Encyclopedia of Indianapolis. A time sequence of specific park development was inserted by the planners to establish a history and context for park acquisition and development. Text located in brackets [] is written by the planners. During the early planning and development of the city there seemed no need for planned public parks.

Alexander Ralston’s original plan (1821) of the Mile Square did not include any designated public spaces. Early residents used pastures, cemeteries, and all undeveloped land about them as recreational areas. As the Civil War approached and the city experienced congestion for the first time, however, citizen action in favor of public parks began slowly to build. In 1859 Timothy Fletcher donated a plot of land to the city with the provision that it be improved and used as a park. The City Council, believing Fletcher’s gesture was a ruse to elevate the value of his adjacent land, refused his offer. Other private donations were also viewed with suspicion, and the council chose not to act upon them.

Using a different tactic, George Merritt was responsible for the first public park in Indianapolis. He repeatedly petitioned state and local authorities for donation of state land for use as a public park. Governor Oliver P. Morton offered the land now known as Military Park for use as a recreation area, and in 1864 the City Council took over protective control of Military Park as well as University Square and the Governor’s Circle.

[Although the Civil War slowed the development of new, urban Romantic landscapes like that at Central Park (1857) in New York; the city still followed the trend for large urban parks designed for passive recreation. The example set by Central Park and emulated in park design throughout the United States provided a “variety of rural scenes” (open meadows, canopied areas, ponds, rock formations) and separate pedestrian and vehicular routes. As is typical for the Midwest, efforts for such development lagged behind coastal areas, but still moved forward. Midwestern landscape architects and architects, (e.g. Jens Jensen and Frank Lloyd Wright, etc.) eventually applied a Midwestern “hand” to park and residential design. These designers and their peers, emulated the Midwestern natural landscape, using stratified limestone, winding stream-like water features and native plant species in the planting beds. The following paragraph identifies the first examples in Indianapolis of the larger, strolling parks located around the periphery of the existing city.]

By the 1870s citizens became more vocal in their desire for public parks, and the City Council launched a tentative program for park purchases. In 1870 the city acquired Brookside Park from the heirs of Calvin Fletcher. Three years later a group of northside residents petitioned the council for a park along Fall Creek, with seven citizens donating 91.5 acres. The northside project failed to gain council support, but similar efforts by a group of southside residents ultimately led to the purchase of Southern Park, later renamed Garfield Park. Again, the council did not develop this property, and the city leased it to the Indiana Trotting Association between 1877 and 1880.

By the 1880s residents privately and in combination with the city [another typical Midwestern action] improved all these park lands. Merritt funded Military Park’s original improvements and subsequently installed a playground. Neighbors of the University Square property voluntarily landscaped the park, and the Odd Fellows of Indiana erected a statue of Vice-President Schuyler Colfax there. Citizens planted trees in Garfield Park and carried other improvements funded by the council. Additionally, residents in the area of St. Clair Square created their own park, collecting subscriptions, laying walks, and planting trees. These 19th century public parks were intended for use as passive recreation areas where middle class and wealthy citizens could relax and enjoy nature.

[The time period commencing after the Civil War and ending at the turn of the century can best be described as a transitional period in landscape design. The early manipulation of the North American landscape was transformed in the 20th century into an American design entity that was based in social, political, technical, and environmental principles that elevated “design” to a new role. At the same time that social concerns were being strengthened by the revitalization of the country after the war, the increasing numbers of city dwellers were becoming less interested with the passive activities offered at the public parks and demanded more active recreation facilities.]

The 1876 Centennial Exposition in Philadelphia showed the acculturation of the United States as a world class country. Among various exhibits of industrial and commercial affluence; planting beds featured exotic and ornamental specimens planted in various geometric shapes. This departure from the naturalistic landscape approach was inspired by the writings of British horticulturist, J. C. Loudon, who advocated non-native species and “artistic” arrangements of plants. Color, variety of species and the visual impact of individual features were more important than the cohesiveness of a unified design. Planting designs using “bedding” plants were inspired by this exposition and remain popular today.

According to Pregill & Volkman in *Landscapes in History*, “To Victorians, leisure represented the opportunity for educational and morally uplifting travel, social contacts and physical recreation.” The Romantic landscapes were “improved” with features that were less a part of a unified design statement and more an embellishment on the land. The public expected entertainment, variety, and organized activities at the parks. Improvements included formal promenades, bandshells, conservatories, zoos, floral displays and amusement areas. Garfield Park (1873) was “improved” using these principles.] [During this same period, the two small parcels of land (Indianola-1896, McCarty Triangle-1897) were acquired for parks.]

[Near the end of the 19th century, the World’s Columbian Exposition in 1893, significantly changed the way a city was planned. The two cultural ideals of the 19th century—the physical improvement of the environment, and the moral improvement of society—coalesced, and were given an American identity called the City Beautiful Movement. The four components of the movement were (1) Civic Design, (2) Civic Art, (3) Civic Reform, and (4) Civic Improvement. Among the objectives of the movement were to establish hygienic urban conditions, create focal points in the streetscape to visually unify the city, and to treat open spaces as a critical urban need, emphasizing active rather than passive recreation.]

City officials immediately consulted nationally prominent park designers to guide park development. The Commercial Club initially hired Joseph Earnshaw, who recommended that sites be purchased and developed along White River and Fall Creek, connected by a chain of small parks and interconnecting parkways. Once established, the park board conducted a survey of possible park sites and commissioned John C. Olmsted, stepson of Frederick Law Olmsted, Sr. to develop a plan for future parks. The Olmsted plan, like the Earnshaw plan, recommended that local waterways be the focus of a system that would include small parks, boulevards, several larger local parks, and a large public reservation.

Mayor Thomas Taggart, who assumed office in 1895, was a strong supporter of parks and was instrumental in laying the foundations for the park system. At his behest the council approved a limited version of the Olmsted Plan and authorized the purchase of over 1,100 acres of land, including much of what now is Riverside Park. [Brookside (1898), Spades (1898) and Highland Park (1898) were acquired at this time.]

Much of the land bought at this time had previously been used as unauthorized dumping grounds. The park department saw its job as ridding the city of unclean and unhealthy areas as well as providing beautiful recreation spaces. Park improvements included landscaping, building water features, and adding walking paths and benches, with the bulk of the work focusing on Riverside and Garfield parks. Parks also began to provide entertainment such as the 18-hole golf course, zoo, and steamboat cruises on White River at Riverside Park.

In 1905 the Board of Park Commissioners learned of George Kessler (1862-1923), who was both a city planner and a landscape architect, and his excellent work on the Kansas City park and boulevard system. Kessler was hired in 1908 as the Consulting Landscape Architect and secretary of the park board. He retained the landscape architect position until 1915. During his employment, Kessler proceeded to update many of the earlier plans and introduced ideas that quickly added to the beauty of Indianapolis. In 1909 he helped pass a new park law that allowed the department to levy taxes for park purchases and improvements. Other laws enacted in 1913 and 1919 increased the department’s self-sufficiency and taxing power. The legislation enabled the department to expand, acquire new property, and begin boulevard construction.

Despite the city’s official sponsorship, citizens continued to actively support park development during the early 1900s by donating property or funding park improvements. The bequests of Alfred Burdsal and George Rhodius in 1911 funded the purchase and development of Willard Park (1907), Burdsal Parkway, and Rhodius Park (1913). [Pleasant Run Parkway was established in 1912, Fall Creek Parkway in 1914, and White River Parkway in 1916. The establishment of Pleasant Run Parkway began the connection of Ellenberger Park (1911) to Garfield Park. South Grove Golf Course (1902), Irvington Circle (1904), Wilbur Shaw Hill (1908) were all a response to the need for variety in recreation activities. The Iron Skillet Restaurant (1908) overlooks the Coffin Golf Course (1920).] Woolens Gardens (1909) was donated to the city by William Watson Woolens, who asked that the land be preserved as a bird sanctuary and botanical study area. John H. Holliday (1916) deeded his 80-acre estate to the city for use as a public park. Municipal Gardens (1915) was originally called Casino Gardens, a private canoe and yacht club, and then dance hall. It was renamed Municipal Gardens in 1927.]

[Another important topic that was beginning to be addressed in the leisure parks of the late 19th century was that of active recreation. Organized sports were becoming popular as a result of social concerns for the well-being of poorer urban children and the assimilation of non-English speaking immigrants. In other, more well-to-do neighborhoods, active recreational activities were in vogue, perhaps as a result of the national organization of such activities as football (1895) and gymnastics (1881). Hundreds of adults and children participated in sandlot activities.]

These activities and other active sports required more space, equipment and constructed features and led to more “improvements” in the already existing parks. The national trend for active recreational opportunities resulted in the development of playgrounds. With the encouragement of President Theodore Roosevelt, the great outdoorsmen, the Playground Association of America was organized in 1906. Large cities allocated money and land to develop these facilities. The city of Boston authorized the development of 20 playgrounds, and the city of Chicago allocated \$1,000,000 for the construction of small parks and pleasure grounds containing not more than 10 acres.]

[Early playgrounds were little more than a barren lot with play equipment (swings and teeter-totters, etc.) installed. Other small playgrounds were developed on school property if space permitted, offering school children year-round opportunities for supervised activities and exercise. As money and interest developed, later playgrounds were designed by landscape architects and typically displayed a better sense of organization, circulation, function and safety.]

The “typical” playground, although officially called a park, offered a variety of activities for all ages of people. Norman T. Newton describes the playgrounds in *Design on the Land* in the following way: Age groups were given distinctive areas, appropriately furnished: play spaces for children, open-air exercise areas for men and women, usually divided by sexes, courts for games, wading and swimming pools, and fieldhouses for indoor recreation. In each case the park... included a bit of greenery thought essential to a visual oasis in a neighborhood. Landscape features that were associated with playground design include a central pavilion or fieldhouse set among trees, a large open space for ball games, a perimeter path, space for exercise equipment, and perimeter trees to define the site. The number of park-school complexes located historically in Indianapolis is unclear at this time, but the following neighborhood parks were acquired in this time period. Watkins Park (1913), Lot K (1915) and Fall Creek and 30th Park (1910) were established as a node on the parkway, and other small land acquisitions included Noble Place (1912), Brightwood (1916), and Greer Park (1917).]

During World War I the city suspended most park activities and funding. In the 1920s the department resumed park purchases and expansion. The park system grew to include 24 parks and parkways, with land totaling approximately 1,900 acres.

During the 1920s, a comprehensive plan for park development was prepared by landscape architect Lawrence V. Sheridan. This plan incorporated the early work of Olmsted, Powers and Kessler into an even larger plan that encompassed the entire county. Sheridan's plan was excellent for its time, however, it was not regularly updated by subsequent planners; with the result that population growth began to outstrip development.

The idea that public parks should provide active, as well as passive recreation originally surfaced before WWII, but recreational programming did not become a high priority until later. As early as 1910 the park board joined with public school and library officials to provide recreational programs, gradually accepting more of this responsibility. In 1919 a new park law transferred the recreation division from the City's health department to the public parks department, which began constructing a system of playgrounds, pools, and community recreational centers in parks. Parks soon provided a variety of year-round athletic programming, classes, clubs, and special events. The centers also provided bathing facilities, day nurseries, dental clinics, and served as a neighborhood headquarters for welfare agencies.

[Recreation and sports centers that were opened at this time included Garfield (1922), Emhardt Stadium (1923), and Brookside (1928). Golf courses included Pleasant Run (1922), Douglass (1926), and Sarah Shank (1928). Specialty parks included Miniature Park (1923) and the Watson Road Bird Preserve (1925).

The influence of the Playground Association and the increased interest in active recreation is evidenced by the number of neighborhood parks that were established in the 1920s. A total of 15 neighborhood parks were built and included the following:

- J. T. V. Hill (1921)
- Alice Carter Place (1922)
- Haughville (1922)
- Kelly (1922)
- Frank Young (1922)
- Babe Denny (1923)
- Hawthorne (1923)
- Porter Playfield (1924)
- Bertha Ross (1925)
- Denver (1925)
- John Ed (1925)
- Centennial & Groff (1926)
- Broadway & 61st (1928)
- Lentz (1928)
- Arsenal (1929)

At the same time that small playgrounds were being developed in neighborhoods to realize the Playground Association's goal of "a playground for every child, within one-half mile of its home," larger parks with a variety of amenities were also being developed. These parks, because of their acreage, offered a variety of recreational opportunities that could not be offered in smaller playgrounds. Larger community parks that were acquired at this time were Christian Park (1921) and Washington Park (1923-The zoo was not built until 1964).]

During the 1930s the system of neighborhood parks, playgrounds, boulevards, and recreation areas in Indianapolis grew despite the Great Depression. The department, however, began to charge fees for some of its operations, such as the golf courses, swimming pools, and community houses, to make them self-sustaining. At the same time volunteers from women's groups, civic organizations, and WPA and CWA workers augmented the parks' work force. Park activities focused on city beautification projects and year-round recreational activities: completing Lake Sullivan, constructing wading pools, staffing summer playgrounds, landscaping the boulevards and public properties, and sponsoring dances. Park community houses became popular, low-cost centers of activity during the 1930s, housing many clubs and classes as well as providing space for other groups.

[The length of the following list of properties acquired in the 1930s supports evidence that the expansion of the parks was greater in the 1920s, before the Great Depression, and improvements in existing parks were more popular in the 1930s. Christian Park Recreation Center was opened in 1932, and only four neighborhood parks were acquired (Acorn (1930), Reverend Mozel Sanders (1931), Bethel Park (1935), and Forest Manor (1937).]

Despite the expansion of park facilities and programs, a Charity Organization Society study in 1937 found only 20 percent of public park acreage was within a two-mile radius of half of the residential population. The park department's major strategies for land acquisition had been to receive donations or purchase cheap land on the outskirts of town, the intended policy of buying small parcels of land within walking distance of all residents throughout the city remained largely unimplemented by the 1940s. [This is evidenced by the addition of only one neighborhood park before the war—Ross-Claypool (1940).]

The World War II years added temporary new responsibilities for the public parks—running canteens and clubs for servicemen and providing land for postwar veteran and emergency housing.

[The end of World War II brought the Baby Boom to the United States. The increased population brought a need for more single-family houses (the American Dream), created suburbs, and demanded the expansion of schools and school playgrounds and parks to satisfy the need of the public. The acquisition of more parkland was not the immediate need, however, as evidenced by the few parks that were acquired in the late 1940s. Broad Ripple Park, the former amusement park, and Marott Park were both donated in 1945. Three neighborhood parks—Barton (1946-gift), Tarkington (1945), and Centennial & 20th (1946-gift)—were acquired. Another donation to the park department was the Sarge Johnson Boxing Center (1945).]

After the war and into the 1950s however, the park department again turned its attention to recreation and city beautification. The playground system expanded, and parks continued to sponsor a growing number of clubs, classes, and "teen canteens." Although the parks had long hosted festivals, the 1950s saw the increase of music festivals, carnivals, and dances, many of which were revenue-producing projects. By the late 1940s the city renewed its efforts to beautify and restore its parks. Much of the park property and existing facilities had not had significant improvements made to them in at least 20 years, and large bond issues in the early 1950s helped pay for much of the renovation.

Athletics became increasingly important after the 1940s and the parks provided sites for many boxing, basketball, and baseball leagues and tournaments, including some of national significance; ...one of which was the 1958 AAU national championship swimming meet at Broad Ripple Park. Golfing also became a high priority during these years, with the parks department hiring golf pros to assist patrons and oversee courses.

[Parks that were acquired during the 1950s were primarily smaller neighborhood and mini-parks. The neighborhood parks were:

- Moreland (1953)
- Virginia Lee O'Brien (1956)
- Ridenour (1956)
- Bowman (1959)
- Sandorf (1959)

Mini-parks:

- DeQuincy (1953)
- Windsor Village (1953)
- Doris Cowherd (1956)
- Beville (1959)
- Canterbury (1959)

Northwestway Park, a community park, was acquired in 1957, as a beginning response to the city moving further from downtown.]

The population boom, which occurred following World War II, found the open space situation worsening and prompted important changes in the county's park management. Prior to 1963, all public parks were under the jurisdiction of one or another of the county's municipalities, the majority being found in Indianapolis. City and county officials recognized the metropolitan character of the county and the need to provide park facilities to those residents living outside of incorporated municipalities, as no suitable areas of sufficient size remained within the corporate boundaries.

This precipitated the creation, in 1963, of the Metropolitan Board of Park Commissioners. It replaced the City Board of Park Commissioners and extended jurisdiction throughout the county with the exception of the towns of Speedway, Lawrence, Beech Grove, and Southport.

Rising rates of suburbanization and competition with private sources of recreation during the 1960s forced park officials to change the focus of public parks. Downtown properties increasingly received less attention as the park department devoted resources to parks nearer the suburbs and purchased park land in suburban townships. Financed by Indianapolis and Marion County taxes, the park department purchased Northeastway (now Sahn Park-1961), Southeastway (1961), [Southwestway (1961)], and Eagle Creek Park (1962).

[The 1960s experienced the acquisition of large tracts of land near the county perimeters. Two community parks were acquired--Gustafson (1961) and Perry (1961). Golf courses were constructed at Sahn (1964), Thatcher (1967), and Southwestway (1968); swimming pools were installed at Sahn (1962), Douglass (1968), and Gustafson (1968); and recreation and special leisure facilities--Post Road (1960), Bush Stadium (1967), and the Woodruff Place Esplanades (1962) were acquired. Neighborhood parks were also important acquisitions 11 parks were acquired during this time period:

- Faculty Drive (1961)
- Martin Luther King (1961)
- Bellamy (1962)
- Gardner (1962)
- Gateway West (1963)
- Foxhill Manor (1964)
- Carson (1965)
- Southside (1966)
- Dubarry (1967)
- Olin (1967)
- Roselawn (1968)
- Pride mini-park (1968)]

Not all downtown efforts were forsaken, however, the department began a perennial effort at park promotion by encouraging neighborhoods, clubs, and civic groups to "adopt" and help maintain a park. Changes continued during the 1970s. A unified government (UNIGOV) expanded the Indianapolis service boundaries to include all of Marion County and reorganized the Department of Parks and Recreation.

Citizen interest in parks fell as suburbanization and park vandalism increased. Public parks also competed for space and resources with urban expansion and renewal efforts. The parks department responded by experimenting with new programs and projects. Using millions of dollars from federal grants and local bond issues, it constructed a system of small, special use parks known as "tot lot" and "vest pocket" parks along highways, refurbished deteriorating facilities, built new facilities, expanded recreational programs, and made extensive improvements to Eagle Creek Park, which opened in 1974. The parks department also renamed many central city parks after notable local and national African-Americans, reflecting the changing nature of park visitors. [The following lists illustrate the expansion of the parks in the 1970s:

Recreation Centers:

- Southeastway (1972)
- Thatcher (1976)

Golf Courses:

- Eagle Creek (1975)
- Smock (1975)

Swimming Pools:

- Riverside (1970)
- Wes Montgomery (1971)
- Rhodius (1971)
- Martin Luther King (1972)
- Perry (1972)
- Thatcher (1972)
- Bethel (1973)
- Ellenberger (1973)
- Brookside (1978)
- Willard (1978)
- Garfield (1979)

Community Parks:

- Wes Montgomery (1970)
- Franklin/Edgewood (1970)
- Paul Ruster (1970)
- German Church & 30th (1971)
- Pedigo Farms (1971, Raymond Park)
- Krannert (1972)
- Oxford Terrace (1972, Oscar Charles ton)
- Thatcher (1973)
- Skiles Test (1974)

Neighborhood Parks:

- Beckwith (1970) Franklin & 16th (1971)
- Smock (1970) Juan Solomon (1971)
- Tibbs & 21st (1971) Robey (1972)
- Stout Field (1974)

Tot lots (Mini-parks):

- Stringtown (1970)
- Christina Oaks (1971)
- Andrew Ramsey (1971)
- Clayton & LaSalle (1972)
- Ringgold (1973)
- Sexson (1973)
- Talbot & 29th (1973)
- Hot Shot Tot Lot (1975)]

While these efforts resulted in notable success, such as the institution of the Indianapolis/Scarborough Peace games, a general lack of park usage, inadequate maintenance, and vandalism became serious problems, especially for central city parks. Parks on the outer edges of the city, especially Eagle Creek Park, and the golf courses, however, offered first rate facilities and programs.

A new parks administration began a greater focus on amateur sports during the 1980s, which inspired a resurgence in park usage and image. The department, in an effort to supply a unique recreation need to the community, began to phase out smaller central city parks in favor of large natural-setting parks and linear parks equipped with fitness and bike paths. Eagle Creek Park became the showcase of the park system during the 1980s, offering a lake, nature trails, and many recreation facilities. Large bond issues funded amateur sports facilities, such as the Lake Sullivan Sports Complex and the Major Taylor Velodrome, which along with the eleven golf courses became venues for special events as well as local and national competitions. The Indianapolis Zoo also relocated from Washington Park in 1986 to the new White River State Park. [The shift in priorities is evidenced by the shortness of the following list of acquisitions:

Mini Parks:

- Highway Parcel # 15 (1980)
- Finch (1988)]

Special Leisure Facilities:

- Indianapolis Soccer & Sports Center (1984)
- Little League Regional Center (1989)

Neighborhood Parks:

- Kessler & Illinois (1982, Friedman Park)
- Eagle Highland (1989)
- Linwood & Shelbyville (1989, Tolin-Akeman)

As of the early 1990s, the Indianapolis Department of Parks and Recreation continued to fight vandalism and public apathy. While the department offered a wide variety of traditional recreational and nature programs, many were underused due to competition from private and commercial providers of recreational facilities. The park system of the early 1990s claimed 73 properties, 16 community centers, 13 pools, and 12 golf courses. [Park acquisitions in the 1990s include:

- Whispering Hills Golf Course (1990)
- Post Road Community Park (1990)
- Glenn's Valley Park (1992)
- Juan Solomon Park Addition (1995)
- WISH Park (1995)
- Thompson Park (1999)
- Golf Soccer Fields (1999)

Beginning in the mid 1990's an emphasis has been placed on providing recreation lands to the public through the use of Recreation and Conservation Easements or long-term leases. These low-cost partnerships have allowed the additions of Town Run Trail Park, The Frank and Judy O'Bannon Soccer Fields and the Golf Soccer Fields. Another avenue for acquiring parkland has been advocacy for donations from land developers. As a part of re-zoning negotiations, acreage has been donated for neighborhood parks as well as floodplain natural areas. Some have included playground and trail improvements or the funds to construct amenities. Examples include Thompson Park, Cloverleaf Conservation Area, the Little Buck Creek Greenway, and Retherford Park.

In the early 2000's, the Department partnered with the Indianapolis Parks Foundation, local donors and worked to secure grant funds to purchase 187 acres adjacent to Southwestway Park. The Cottonwood Lakes and Mann Property additions make Southwestway Park the second largest park in Marion County at 586 acres including Winding River Golf Course. In 2003 Indy Parks partnered with the Department of Public Works to open 43 acres of the Pogues Run Detention Basin to the public for recreational use.

The 1.5 miles of trail offer an opportunity for exercise and offer a venue for future art installations. Through a generous grant from the Lilly Endowment, Indy Parks has embarked on a significant expansion of its programmed facilities in recent years. New family recreation centers at Washington Park and Bethel Park, as well as additions at Christian Park, Municipal Gardens, and Rhodius Parks greatly expanded the Departments ability to offer low cost recreation programs in additional City neighborhoods.

The renovation of the Indy Parks (Garfield) Arts Center provided a center of focus for County-wide visual, performing, and literary arts programs. The Eagle Creek Park Earth Discovery Center allowed for expansion of environmental education. The extension of the Monon Trail from Fall Creek south to 10th Street connected much of Indianapolis' north side to downtown. Park acquisitions included:

- Grassy Creek Park (2000)
- Town Run Trail Park (2000)
- Little Buck Greenway (2001)
- Mann Property Addition (2002)
- Frank and Judy O'Bannon Soccer Fields (2003)
- Cottonwood Lakes Addition (2003)
- Basswood Park (2003)
- George E. Kessler Park (2003)
- Pogues Run Basin (2003)

Beginning in 2004, the Department received 185 of the 384 acres acquired during this period via donations from numerous sources. During this time the department installed 1.5 miles of Fall Creek Greenway (Kessler to Skiles Test Nature Park) and added its third Canine Companion Zone at Paul Ruster Park. In 2007, the Department was the primary host for National Recreation and Park Association's National Exposition and Congress that included over 10,000 delegates from park systems all over the world. New Family and Nature Centers were completed or started at Eagle Creek's Earth Discovery Center and Windsor Village Park and new club houses were finished at Smock and Thatcher Golf Courses. Park acquisitions included:

- Griffin Woods Park (2004)
- Riverwood Park (2004)
- Retherford Park (2004)
- Stamm Park (2004)
- Franklin & 38th Park (2004)
- Edgewood & 21st Park (2004)
- Peace Park (2004)
- Emhardt Park (2004)
- Acton Park (2004)
- Blickman Trail (2004)
- Wight Fields (2004)
- Grassy Creek Regional Park (2006)
- Broad Ripple Canoe Launch (2006)
- Dollar Hide Creek Park (2006)
- Colorado & 29th Park (2006)
- Hanover Park North Park (2006)
- Copper Grove Park (2007)
- Red Maple Park (2007)
- Kitley & Troy Park (2007)

Since 2007, the following park acquisitions have occurred:

- Wildwood Park (2008)
- Wolf Run Park
- Century Park (2010)
- Five Points and Edgewood Park (2011)
- Bel Aire Park (land exchange) (2013)
- Carson Park (addition to existing park) (2014)

APPENDIX C

YOUTH SURVEY CHARTS

Indy Parks - Youth Community Survey

Q1 Have you or members of your household visited any Indy Parks during the past 12 months?

ANSWER CHOICES	RESPONSES	COUNT
Yes	80.36%	446
No	19.64%	109
TOTAL		555

Indy Parks - Youth Community Survey

Q2 From the following list, please check ALL the Indy Parks facilities you or members of your household have used or visited over the past 12 months.

Answered: 517 Skipped: 44

Indy Parks - Youth Community Survey

ANSWER CHOICES	RESPONSES	
Basketball courts	46.62%	241
Boating areas	7.74%	40
Botanical gardens	11.80%	61
Golf courses	11.22%	58

Encuesta comunitaria sobre parques y recreación de Indianápolis

Q19 Si dispusiera de \$100 más para infraestructuras de parques y recreación en Indianápolis, ¿cómo asignaría los fondos entre las categorías que se indican a continuación? [Asegúrese de que su asignación sume \$100].

Answered: 2 Skipped: 0

ANSWER CHOICES	AVERAGE NUMBER	TOTAL NUMBER	RESPONSES
Mantenimiento/mejora de los centros al aire libre existentes (parques pequeños/grandes, piscinas, campos deportivos, etc.)	60	60	1
Mantenimiento/mejora de los centros cubiertos existentes (centros comunitarios, piscinas/pistas de hielo, etc.)	10	10	1
Mejora y desarrollo de nuevos senderos peatonales, ciclistas y naturales	55	110	2
Desarrollo de centros nuevos al aire libre (campos deportivos, centros acuáticos familiares, parques emblemáticos, etc.)	10	10	1
Desarrollo de centros nuevos cubiertos (zonas de acondicionamiento físico, senderos para caminar, gimnasios, actividades acuáticas familiares, etc.)	10	10	1

PUBLIC COMMENTS

- Please update the large, multipurpose room @ Riverside Park, with seating & lighting. It is not by Hamilton or Boone Counties definition an auditorium. The natural lighting is great as is the size of the room. It is in need of immediate upgrades.
- Thank you for this summary and for soliciting much community input with an eye towards equity and inclusion.
- You show the household median income as \$32,659 in the summary and beginning of chapter 2, but in the detailed income info in chapter 2 it says the city's per capita income is \$32,659, while the median household income is \$54,497. These need to be consistent.
- It's interesting to see the growth in Indianapolis LatinX population.
- "Expand Indy Urban Acres Programming beyond their farm to family centers on the eastside" - Love this idea. Indianapolis Hiking Club listed twice in partners list. I'm surprised Reconnecting to our Waterways is not included as a partner.
- It was amazing to see the level of interest in outdoor adventure and recreation activities such as climbing, backpacking and canoeing.
- I like all the opportunities and recommended outcomes listed after the Neighborhood Listening Sessions. I hope these are put in place, especially community conversations, neighborhood parks ambassadors, and resident-led advisory group. Agree with the desire for dog parks in more diverse neighborhoods.
- Beautiful features abound. Some need better maintenance.
- There needs to be consistent invasive species removal at ALL indy parks facilities. "Extend traditional park maintenance operations to include invasive species control to previously unmanaged areas"
- The level of growth needed in the next five years to meet anticipated service levels in daunting when you consider that one of the most significant priorities of this plan is adequate funding and maintenance of the current parks system. Maintaining what we already have vs. growth will be a huge challenge.
- One partner that really does a nice job with youth, especially racially and ethnically diverse, is Camptown. They also do a great job with the outdoor adventures. Why not do more with them?
- Please re-do the website.
- Funding sustainability continues to be an issue. Public/private partnerships should be considered to generate revenue.
- excited to see \$1.8 M funding for Brookside Family Center historic plaza renovation!
- Some of the playgrounds are very outdated and worn down. A few seem a little dangerous children with rusted spots, playgrounds coming apart, rusted bolts that are supposed to hold play together but making it loose. Specifically the playgrounds at Riverside Park. I take my daughter there everyday and notice when I grab on to step up it is loose. I have also gotten a bad scratch and a hole in my pants due to the material on the playground coming up with sharp edges.

APPENDIX D

PROGRAM CLASSIFICATION

Program Classification: Core Program Areas	
Active Adults 62+	Adaptive & Inclusion
Adult Sports	Arts, Concerts. & Movies
Aquatics	Day Camps
Enrichment	Environmental Education
Health & Wellness	Outdoor Adventure
Special Events	Youth Sports

Essential Programs	
Swim Team	Youth Swim Lessons
Pre-school Lessons	Kid Fit
Youth Open Gym Basketball	Pee Wee Basketball
Basketball Skills Development	Basketball Skills Academy
Basketball Skills Training	Basketball Training Camp
Jr. Basketball League	Freestyle Ice Skating
Girls Hockey	Youth Open-gym Basketball
Youth Open-gym Volleyball	
Strengthening and Toning	Open Swim
Open Skate	Freestyle
Second Helpings Meal Program	Indy in Motion
Pickleball	SFSP (summer food program)
CACFP (after school food program)	CPR classes
Senior Aerobics	Wellness Workshop Series
Senior Exercise Classes	Monthly Lunch & Learn
Intro to Archery	
Master Gardener Guided Tours	Adult Gardening Program
Indiana Master Naturalist Series	Feeding Time (exhibit animals)
Animal Care Assistant	IMN Advanced: Wildlife Rehab
IMN Advanced: Native Seed Propagation	Volunteer Coffee Talks
Pond Study	Indiana Master Naturalist Workshop

Meet a Raptor	Great Backyard Bird Count
Birds & Blooms	Bark & Birds
Hummingbirds	Vulture Visits
Owl Prowl/Friday Night Hoots	Bird Hikes
Backyard Birds/Bird Habitats	Feeding/Backyard
Indiana Master Birder	
Little Ducklings (Pre-k)	Girl Scout Nature Patches
Indoor and Outdoor Scavenger	
Traditional Day Camp	Camp Create
Camp Paint-a-Palooza	Wiggle Worms
Trail Stompers	Forest Forensics
Survivor	Avian Adventure
Nature Detectives	Wilderness Girls
Jr. Ornithologists	Forest Friends
Make a Splash	Time Travelers
Down and Dirty	Adventure Camp
Stream Stompers	Strive to Survive
Wetland Wonders	Eye on the Target
Strive to Survive II	Wildlife Encounters
Slippery, Slimy Science	Outdoor Expedition
Little Ducklings	Magical Creatures
Jr. Naturalists	Insect Safari
Into the Wild	Tree Hugger
Meal Prep	Weird Science
Craft Club	
First Friday	Arts for All
Arts & Crafts	Birds & Brushes
Bird Collages	Bird Craft Take-Home Kits
After School Programs	Homework Help
Teen Zone	Little Gardeners
STEM Workshop	

Nature Play Days	Eagle Creek Birding Festival
Important	
Spring Fling Basketball League	Tot Time
Youth Stick and Puck	City Wide Basketball League
Youth Basketball League	Youth Football
Youth Baseball	Football Camp
Basketball Camp	Youth Volleyball
Taekwondo	House Hockey League
Next Gen Basketball Pro-Camp	Next Level Hoops
Beginning Archery	Flag Football
Soccer Clinic	Youth Tennis Clinic
Sports of All Sorts	Youth Badminton Training
Special Olympics Basketball	
Indy in Motion	Stick and Puck
Personal Training	Yoga Indy in Motion
Tai Chi	Food Pantry
Riverside Food Pantry	Step Aerobics
Cooking with Kids	Xcellence Fitness
Youth Gymnastics	Preschool Gymnastics
Beginner Tai Kwan Do	Intermediate Tai Kwan Do
Martin's Tai Kwon Do	Youth Hockey
Volleyball	
Archery	MCPHD Dip In Classes
Senior Line Dancing	
Full Moon Campfire & Hike	
Jungle Tales	Little Explorers
Critter Chat	Blakes' Garden Storytime
Bird Walk	Gather in the Garden
Hide & Seek	Storytime on the Reservoir
Breakfast with Bats	Turtle Recess

Snake Recess	Opossum Outing
Friday Night Frog Watch	Books and Boots (nature book theme)
Tadpole Time	Meet a Crawdad
My First Pet Snail	Scent-sational Skunks
Falcon Friday	Raptor Feeding Time
Raptor Training Demo	School Field Trips
Homeschool Ornithology Club	What is a Bird/Adaptations
Birds of Prey	Conservation
Migration Obstacle Course	Nests & Eggs
Bird Hike	Bird ID
Bird Songs	Owl Pellets
Trees	Decomposition
Animal Tracks & Signs	Sensory Hike
Sensory Nature Hike	Build Your Own Habitat
Water Quality Testing	Reptiles
Reptiles	Amphibians
Insect Study	IN Wildlife
Box Turtle Conservation	Pond Study
Bats	Wonder of Plants
Nature Detective	
Party Time Dance	Adaptive Golf
Adaptive Ice Skate	Basketball
Golf Clinic	Wheelchair Lacrosse
Clay Handbuilding	Flow Painting
Jazz in the Park	Symphony in the Park
Celebration of Nature	Images of Nature
Artist of the Moth	Kids Wildflower Art Exhibit
Jazz at the Point Series	In Concert with Nature Series
Family Movie Night	
Indy Youth Achievers	Girl Talk
Robotics	Entrepreneur Master Class

Business Adventure	Money Club
Chess Club	
Harvest Fest	Wildflower Weekend
Lilly Lake Lantern Walk	Eagle Creek BioBlitz
Eagle Creek October Owl Festival	Vulture Awareness
Penguin Awareness Day	Toys for Tots Christmas Giveaway
Back to School Bash/Events	First Fridays
Birthday Parties (Aquatics)	Birthday Parties (Art)
Birthday Parties (Ice Skating)	Girls Hockey Clinic
Try Hockey for Free	Bug Fest
Owl Fest	Environmental Adventure Days

Value-Added

AAU Basketball Program	Sycamore Ice Skating Lessons
Open Gym Basketball	Open Gym Pickleball
Beginner Pickleball Clinic	Adult Pick-up Hockey
Pound Fit	Beginner Open Pickleball
Adult Open Gym	Bando Adult Martial Arts
Dave's Water Aerobics	Gillian's Water Aerobics
Tina's Water Aerobics	Private Swim Lessons
Weight Room	Line Dancing
Tang So Do	Tai Kwon Do
Boot Camp	Yoga in Nature
Parent & Me Gymnastics	Building Ballers Girls Basketball Camp
All Sports Youth Camp	Sports of All Sorts Clinic
Euchre	Sheila's Aqua Arthritis
Senior Game Day	Trip to the State Museum
Trip to Maple Syrup	Trip to the State Fair
Trip to Junior League Shopping	Senior Bingo
Second Day Hike	Outdoor Skills: Firebuilding
IMN: Fly Fishing	Axe Throwing for Women

Beer and Learn Outdoor Kills Series	Atlatl for Women
Atlatl for Families	Open Water Birding
Campfire Cooking	Eagle Creek School of Witchcraft and Wizardry
SEW Maple Syrup Programs	
Herb Workshop	My Punny Valentine Self-Guided Hike
MLK Jr. Self-Guided Hike	Various Birding/Bird Feeding/Backyard Habitats
Camp GATHER -6-12	GATHER on the Move -13-18
Bike Camp	Counselor in Training
Camp Clay	Camp Performing Arts
Outdoor Adventure	
Adaptive Egg Hunt	Adaptive Holiday Party
You Deserve a Break	Inclusive & Accessible Birding
English Country Dance	Needle Felting
Embroidery	Vintage Movie Night
Bird Valentines	Nature Open Mic
Girls on the Run	Girl Scouts
Digital Storytelling	
IMPD Community Day	DINO Races
Bingo Nights	Annual Skate with Santa
Annual Halloween Skate	Valentine Day Skate
Eagle Creek 50 th Anniversary Celebration	Eagle Creek Heritage Day
Christmas Bird Count	Easter Egg Hunts
Socks for Homelessness Basketball Tournament	Blacktop Battle 3on3 Basketball Tournament
Senior Holiday Mart	Ghoulish Garfield
Christmas at Garfield	Hauntless Halloween
Breakfast with Santa

RECOMMENDED PRACTICES IN VOLUNTEER MANAGEMENT

In developing a volunteer policy, some recommended practices that the Department should be aware of include:

- Involve volunteers in cross-training to expose them to various organizational functions and increase their skill. This can also increase their utility, allowing for more flexibility in making work assignments, and can increase their appreciation and understanding of the Department.
- Ensure a Volunteer Coordinator (a designated program staff member with volunteer management responsibility) and associated staff stay fully informed about the strategic direction of the agency overall, including strategic initiatives for all divisions. Periodically identify, evaluate, or revise specific tactics the volunteer services program should undertake to support the larger organizational mission.
- A key part of maintaining the desirability of volunteerism in the agency is developing a good reward and recognition system. The consultant team recommends using tactics similar to those found in frequent flier programs, wherein volunteers can use their volunteer hours to obtain early registration at programs, or discounted pricing at certain programs, rentals or events, or any other Department function. Identify and summarize volunteer recognition policies in a Volunteer Policy document. The Department should ensure that it is compliant with State Board of Accounts' requirements as the volunteer program and recognition is developed.
- Create and then regularly review and update volunteer position descriptions, as needed. Include an overview of the volunteer position lifecycle in the Volunteer Manual, including the procedure for creating a new position.
- Make the Volunteer Manual available on the Volunteer webpage for users to review.
- Add end-of-lifecycle process steps to the Volunteer Manual to ensure that there is formal documentation of resignation or termination of volunteers. Also include ways to monitor and track reasons for resignation/termination and perform exit interviews with outgoing volunteers when able.

In addition to number of volunteers and volunteer hours, categorization and tracking volunteerism by type and extent of work, is important:

- **Regular volunteers:** Those volunteers whose work is continuous, provided their work performance is satisfactory and there is a continuing need for their services.
- **Special event volunteers:** Volunteers who help with a particular event with no expectation that they will return after the event is complete.
- **Episodic volunteers:** Volunteers who help with a particular project type on a recurring or irregular basis with no expectation that they will return for other duties.
- **Volunteer interns:** Volunteers who have committed to work for the agency to fulfill a specific higher-level educational learning requirement.
- **Community service volunteers:** Volunteers who are volunteering over a specified period to fulfill a community service requirement.

- The full list of NRPA Recommended Guidelines for Credentialing Volunteers is here https://www.nrpa.org/uploadedFiles/nrpaorg/Membership/Endorsed_Business_Provider/NRPA%20recommended%20guidelines%20-%20Final.pdf.

The Department should encourage employees to volunteer themselves in the community. Exposure of staff to the community in different roles (including those not related to parks and recreation) will raise awareness of the agency and its volunteer program. It also helps staff understand the role and expectations of a volunteer if they can experience it for themselves.

RECOMMENDED PRACTICE FOR ALL PARTNERSHIPS

All partnerships developed and maintained by the Department should adhere to common policy requirements. These include:

- Each partner will meet with or report to the Department staff on a regular basis to plan and share activity-based costs and equity invested.
- Partners will establish measurable outcomes and work through key issues to focus on for the coming year to meet the desired outcomes.
- Each partner will focus on meeting a balance of equity agreed to and track investment costs accordingly.
- Measurable outcomes will be reviewed quarterly and shared with each partner, with adjustments made as needed.
- A working partnership agreement will be developed and monitored together on a quarterly or as-needed basis.
- Each partner will assign a liaison to serve each partnership agency for communication and planning purposes.

PARTNERSHIP OPPORTUNITIES

The Department currently has a strong network of recreation program partners. Therefore, the following recommendations are both an overview of existing partnership opportunities available to the Department, as well as a suggested approach to organizing partnership pursuits. This is not an exhaustive list of all potential partnerships that can be developed, but this list can be used as a reference tool for the agency to develop its own priorities in partnership development. The following five areas of focus are recommended:

1. **Operational Partners:** Other entities and organizations that can support the efforts of the Department to maintain facilities and assets, promote amenities and park usage, support site needs, provide programs and events, and/or maintain the integrity of natural/cultural resources through in-kind labor, equipment, or materials.
2. **Vendor Partners:** Service providers and/or contractors that can gain brand association and notoriety as a preferred vendor or supporter of the Department or Department in exchange for reduced rates, services, or some other agreed upon benefit.
3. **Service Partners:** Nonprofit organizations and/or friends' groups that support the efforts of the agency to provide programs and events, and/or serve specific constituents in the community collaboratively.
4. **Co-Branding Partners:** Private, for-profit organizations that can gain brand association and notoriety as a supporter of the Department in exchange for sponsorship or co-

branded programs, events, marketing, and promotional campaigns, and/or advertising opportunities.

5. **Resource Development Partners:** A private, nonprofit organization with the primary purpose to leverage private sector resources, grants, other public funding opportunities, and resources from individuals and groups within the community to support the goals and objectives of the agency on mutually agreed strategic initiatives
